

## Key investor information

This document provides you with key investor information about this UCITS. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this UCITS. You are advised to read it so you can make an informed decision about whether to invest.

**SEVEN UCITS – SEVEN DIVERSIFIED FUND,  
a sub-fund of SEVEN UCITS  
Class: EUR-R, (Accumulation) LU1229132797**

This UCITS is managed by SEVEN CAPITAL MANAGEMENT

### Objectives and investment policy

Management objective: The SEVEN UCITS – SEVEN DIVERSIFIED FUND sub-fund aims to obtain an annual performance, after the deduction of operating and management fees, exceeding that of the daily capitalised EONIA.

The sub-fund's strategy is to build a portfolio of diversified assets.

It is a long-only sub-fund (taking long positions only), which may be fully divested.

To achieve its management objective, the sub-fund will primarily invest in shares and interest rates, mainly via derivatives but this may also be achieved via securities.

It may also invest up to 10% of its net assets in products whose underlying assets are alternative funds.

The uninvested portion will be placed in money-market instruments (such as negotiable debt securities).

The investment process consists of two steps:

1. Half-yearly allocation: this step gives us the maximum exposure that we want to have for each product.
2. Daily indication: this step gives us a sense of the position and conviction of each market. The indication is the consolidation of several indications, based on momentum, risk and fundamentals.

Except in exceptional cases, historical volatility must remain within a range of 4% to 10%.

The net asset value of the sub-fund is expressed in EUR.

The net income of this sub-fund is fully accumulated for the share class EUR-R (Acc); the recommended investment period is 3 years.

Subscriptions and redemptions are cleared daily until 12 noon at CACEIS Bank, Luxembourg Branch, and are executed on the basis of the next net asset value (daily net asset value).

**Why is the UCITS classified as category IV:**

Risk category 4 reflects a moderate potential gain and/or loss in the value of the portfolio. This is due to the Fund's exposure to equities, interest rate products and fund units without geographical restriction.

Historical data, such as that used to calculate the synthetic indicator, cannot be considered as a reliable indication of the future risk profile of the UCITS.

The risk category associated with this UCITS is not guaranteed and may change over time.

The lowest risk category does not mean "risk free".

Your initial investment is not guaranteed.

**Significant risk(s) for the UCITS not taken into account in this indicator include the following:**

**Liquidity risk :** investments may be made in small cap equities. The volume of these listed securities is limited, market movements are therefore more pronounced, both upwards and downwards, and can occur more suddenly.

**Counterparty risk:** the insolvency of any entity providing services such as the safekeeping of assets or acting as counterparty to derivatives or other instruments may expose the UCITS to financial losses.

## Charges

The charges and commissions are used to cover the operating costs of the UCITS, including marketing and distribution of shares. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	3.00%
Exit charge	None
The percentage shown is the maximum amount that can be paid out of your investment. You may find out the actual entry charges from your financial advisor or distributor.
